HIGHLAND

The Highland distilleries are a vast area taking in such far flung distilleries such as Dalwhinnie just north of Glasgow, to Oban, Old Pultney in Wick and North Port in Brechin. It is by far the largest geographic region of Malt Whisky production and arguably has the most diversity in terms of character and style.

SPEYSIDE

The heartland of Whisky making in Scotland, with over half of Scotland's distilleries inhabiting the area. Speyside encompasses an area of the Highlands in the North East of Scotland. Unique for many attributes, including but not limited to hosting the only Malt Whisky trail in the world, the first licensed distillery in the Highlands, the only working cooperage in the UK and the only Malt distillery pioneered by a woman (Cardhu).

ISLAND

A diverse whisky region, the proximity to the sea often proffers slightly salty, sometimes smoky whiskies. Balance is a recurring theme; sweetness and pungency in perfect harmony. A decidedly eclectic assortment of whiskies is to be found on the Islands. It is hard to categorise them, indeed the fact they are a category of their own is most probably for geographic ease rather than for discerning between styles.

ISLAY

Islay's whisky production far exceeds it's size, only 25 miles long and 15 miles wide it is the home to eight working whisky distilleries with a ninth due to open in the next five years. The production of alcoholic beverages is very important to the islands economy with a flourishing brewery and gin production at Bruichladdich distillery. Islay Malts are often associated with a heavy peat influence yet the small island produces an array of whisky styles.

LOWLAND

The Lowlands encompass the area to the south of a line drawn between Dumbarton and Perth, in Central Scotland. Generally speaking, Lowland Whiskies tend to be soft, gentle and delicate; often described as “the lowland ladies”, yet there will always be rule breakers! With only three active Malt Whisky distilleries in the region Grain Whisky is having something of a revival.

CAMPBELTOWN

Campbeltown was once one of the most prolific regions in Scotland, sadly US Prohibition affected the area and until recently there were only 2 distilleries producing whisky. Campbeltown sits on the Mull of Kintyre and the single malt whiskies from the region reflect this with a slight coastal character. They are known for their dryness and often for their pungency.

SINGLE GRAIN WHISKIES

To the uninitiated, grain whiskies are the filler in blends, knitting together the real flavour from the single malts and – since they’re typically cheaper to make – keeping the price down. Unfair. Apart from giving real flavour and texture to blends, well-made grain whiskies have a distinct character all their own.
